## WALL OF WARSHIPS ACROSS NORTH SEA STOPS TRAFFIC

Nothing Can Get by England's Impregnable Battle Line of Dreadnaughts Declares Sailor.

TROOPS STILL MOVING  
ACROSS THE CHANNEL

Plan by Which Expeditionary Force of 150,000 Was Dispatched Worked Out in Detail Two Years Ago.

(Associated Press Correspondence.) London, Sept. 19.—A "solid wall of warships" is thrown across the northern part of the North sea, according to the captain of a British trawler who has just arrived from Iceland. The skipper said it was "absolutely impossible for any foe to break through undetected," so expert and thorough was the patrol to the north. It was his own experience to be halted and searched and after being released his boat was followed by two torpedo boats until it reached its destination.

The thoroughness of the patrol was further testified to by another North sea skipper. His trawler was lying along shore, when shortly after midnight it suddenly found itself hemmed in by a huge black object which proved to be a British cruiser. Its officers seemed to have cast eyes

Is a Powerful Influence in Blood

Works With a Definite Purpose and Is a Known Antidote.

There are some things in medicine that are certain and definite. They do the work. S. S. R. is one of them. It is reliable and is a known antidote for all blood troubles. No one that it is harmless for it does not hurt the bones and joints, nor does it alter the integrity of the nerves and spine. But it does sweep through the blood, a powerful, searching, cleaning influence, removing the toxins and aches and pains, quiet to those who suffer the humiliation of skin eruptions.

Nearly all sickness is due to sluggish blood. And if you let S. S. R. bathe your system with its wonderful influence your nervous troubles, your wan, weary, faded, listless body will revive and your complexion improve with the result of improved health and will severely know yourself. Try S. S. R. today. Get a bottle at any drug store. It will put you on your feet; keep you going all day and enable you to sleep sound and restful. S. S. R. is not a "shop," nor a "pharmacy," but a "one hundred percent" medicine that is sure to do what you need. S. S. R. is prepared by The Swift Specific Co., 60 Swift Bldg., Atlanta, Ga., and if you are troubled with any sickness blood disease their medical department will guide you

sunlight conducting, milk delivering, gardening and the farm work that is generally done by lads of 18 or 20. "Of course, behind and beyond these more or less fresh volunteers comes the great army of nurses, domestic workers, clerical agents, and the numberless well educated, intelligent women who are fully capable of shop and general business work. Naturally enough, qualified doctors, nurses and dispensers are drafted out as soon as they come in. Cooks and domestic servants follow suit, but every day's register points to the fact that we have here a mighty agent for the national good.

"And so the Women's emergency corps feels itself justified in making an offer to the war office, the government and the country at large—namely, that they are prepared to find a paid substitute for any man who enlists; such substitute to guarantee to leave the job on the man's return and to take over the man's belongings as a personal charge; that is to say, while not binding herself to give pecuniary assistance, she will see to it that allowances are duly paid, that refund in special circumstances is given, and generally, so far as in her lies, stand as a friend between the man's dependents and the cold world.

"This is a big offer; it is one which naturally will require adjustment to each individual case, but it is one which holds enormous advantages."

The clash of war among the nations of Europe has not modified the views of the supporters of the channel tunnel scheme whose desire to build a tunnel from Dover to Calais has been blocked for years by the military authorities on the ground that it would destroy England's neutrality.

Several peers and members of parliament who have for long shown an

interest in the scheme, declare that instead of profits of assistance to the enemy a channel tunnel would have been of immense assistance in transporting the British army.

They declare they will continue the advocacy of the tunnel at the end of the war. The presentations suggest the prevention of an invasion of England to include the flooding of a dip in the tunnel, commanding exits with guns that could not be silenced from the sea, and an electric button that might touch off an explosion to destroy a part of the tunnel if necessary.

One of the most successful generals on the Russian side in the advance on Lemberg was General Dimitriev, the well known Bulgarian general who led the third army, which formed the left wing of the Bulgarian forces, in the great battle of Lake Balaia on October 29 and 30, 1912. Previous to this he had won a signal victory over the Turks at Kirk-Kilis. After the end of the war he was sent as ambassador to St. Petersburg, that is to say, to Petrograd, where he joined the Russian army, a step for which he was cast off by Bulgaria.

CHANCE FOR CITY  
TO GET MOUNTED  
OFFICER CHEAPLY

If the police committee decides to put a policeman on horseback, it can add a mount to the force at little expense. Officer Ed Donthieu, a good saddle horse which he is willing to put into the department's service if the city will pay for its keep. Inasmuch as the city could hardly get a cheaper arrangement than that will probably be what the committee will decide upon if it is deemed desirable to have a mounted man.

Chief McMillin is in favor of a

mounted policeman. He said today that a horse was much more useful for police work in this city and its environs than a motorcycle would be.
